Swell Touch Paper

Swell Touch Markers

A Unified Mission

The strength of American Thermoform, Braillo, and Zychem lies not only in their individual innovations but in their shared commitment to advancing braille accessibility, literacy, and inclusive education. Together, they set unparalleled standards in the industry, providing visually impaired individuals worldwide with high-quality braille and tactile graphics materials. This integrated approach positions the three companies as a trusted, one-stop solution for braille production facilities and customers globally.
